Wedding reception bingo: two ways to play

Give each guest a different numbered card. The pack includes 30 different 5 x 5 layouts, a free center and a reference list of 32 entries.

Observation game: agree on when the round begins and ends. Mark an entry only when its moment or object is actually seen or heard. Decide before play whether one moment can fill several squares. Check a claimed win against what your group observed.

Called word game: use the host list to draw names in random order, without replacement, then mark matching squares. The generic host-sheet directions apply to this version.

Choose a row, column or diagonal target before starting and agree on ties. Celebrations differ; a full-board target may be impossible if some entries are absent.

To edit the list, import wedding-reception-bingo-items.txt into the card maker at printablebingocards.co/bingo-card-generator/. You can choose the bridal-shower artwork and change the title to WEDDING BINGO.
